

**Test Report General-Purpose Disinfectant Product**

**BS EN 1650:2019**

Company Name: Sanigone Ltd

Contact Name: Barrie Jacobs

Purchase Order No: 12905

Report Date: 13/07/2020

**Melbec Ref Number:** 18052

**No. of Samples:** 1

**Name of Test Product:** Surface Disinfectant - Sanigone Room Sanitizer

**Batch Number:** #2

**Sample Details:**

|   |               |
|---|---------------|
| Manufacture / Supplier:   | Sanigone Ltd  |
| Product storage conditions:   | Ambient       |
| Appearance of the product (as supplied):                            | Clear liquid  |
| Appearance of the product (after dilution):                         | N/A           |
| Appearance of product with interfering substance and test organism: | Opaque liquid |
| Active substance and concentration:                                 | DDAC          |
| Product dilutions/concentrations:                                   | RTU           |
| Diluent used to dilute product:                                     | N/A           |

The test product was in satisfactory condition for testing when received.

Date product received: 18/06/20

Test Date: 25/06/20

**Experimental Conditions:**

|                        |  |
|------------------------|--|
| Interfering substance: | Bovine Albumin (dirty 3.0g/l)                                      |
| Test temperature:      | 18 to 25 °C  |
| Contact time:          | 30 Minutes   |
| Test organisms:        | Candida albicans ATCC 10231<br>Aspergillus brasiliensis ATCC 16404 |

Incubation temperature: 30 degrees

**Requirements of the Standard:**

The test product shall demonstrate at least a 4 decimal logarithm (lg) reduction when tested in accordance with this standard under simulated dirty conditions.

**Conclusion:**

For the product Surface Disinfectant - Sanigone Room Sanitizer, [Batch code #2] the log reduction requirements as specified in EN 1650:2019 (4 lg within the relevant contact time) were met.

Testing carried out by:

Name: Yvie Newall  
Position: Senior Microbiologist

Report authorised by:

Name: Dawn Mellors  
Position: Technical Director  
Date: 13/07/2020

**Test Results:**

**Neutralisation Method Used:**

Membrane filtration

Rinsing Liquid Used: N7

*Candida albicans ATCC 10231*
